Dear Comrades

The Communist Party of Denmark, DKP, sends the warmest congratulations to the 100<sup>th</sup> anniversary of the founding of the Communist Party of China (CPC) July 1<sup>st</sup>, 1921. We convey our greetings of solidarity and best wishes to the Chinese people and working class.

We are inspired by the role of the CPC in achieving an impressive economic development, by your ongoing discipline and fulfillment of the “Four Cardinal Principles” and we are happy about the reestablishment of good party relations between DKP and CPC after a long period of non-relations since the 1960's.

We do appreciate the many initiatives of the CPC to build Socialism in China, and we are eager to study and learn more from the Chinese experience. For the communists in Europe, it is important to study and understand the causes of the counter-revolution in Europe as well as the great results of the CPC and the Chinese experience to make progress in our struggle for peace, democracy and socialism, against Imperialism.

We highly appreciate the epoch-making Chinese Belt and Road Initiative to promote a global win-win cooperation to eradicate global poverty, fight pandemics and promote a sustainable climate and development for the whole mankind.

The experience of a dynamic socialist public sector, cooperative enterprises, win-win cooperation with foreign companies and a private economic sector subject to central economic planning, the power of CPC and the working class and welfare for the whole Chinese people will forever be successes in the history of mankind and bring defeat to cold war policy of imperialism throughout the world.

The Communist Party of Denmark wishes the CPC good results and many successes. We will support your future initiatives to strengthen cooperation and unity in the international communist movement.

Long live the CPC and its impressive results during the first 100 years!  
Long live Proletarian internationalism!

Long live the friendship between CPC and DKP!

Comradely greetings  
Communist Party of Denmark

Henrik Stamer Hedin
